

**FACT SHEET****CITY OF SHREVEPORT, LOUISIANA****TITLE**

An Ordinance Amending the 2024 Budget for the Water and Sewer Enterprise Fund and to Otherwise Provide With Respect Thereto

**DATE**

10/7/2024

**ORIGINATING DEPARTMENT**

CAO

**COUNCIL DISTRICT**

N/A

**SPONSOR**

No Sponsor

**PURPOSE**

To adjust the Water and Sewer budget, based on current estimates of revenue and expenses. To allocate some prior-year revenues to \$13.2 million in capital projects, while allocating another \$6 million to cover higher expenses for chemicals and contractual services (equipment rentals and on-demand main repairs).

**BACKGROUND INFORMATION**

The actual fund balance for the Water and Sewer Fund as of December 31, 2023, was higher than projected. Those additional funds are being allocated in this ordinance to cover higher expenses for chemicals and contractual services (\$6 million) and to fund two high-priority capital projects that could not be included in the recent bond issue package. Replacing worn-out equipment and piping at the sludge disposal site will cost \$7.25 million, while replacing the obsolete SCADA system of instrumentation that controls our treatment plants, lift stations and water storage facilities will cost \$6,000,000. There is a companion Capital Budget amendment to create the projects.
